Hello, my name is Slava

I'm developer in the field of Frontend development and determined to become a full-stack developer. I like to bring visual designs to life, make them functional through the use of coding. I have a passion for excellence and I am really committed to achieving the best possible results.

My purposes: Styding and improving knowledge of HTML5, CSS3, JavaScript technologies. Practice and improve my knowledge of React and Redux. Learn React Native and NodeJS.

My strengths: I'm driven to succeed and deliver results. And I have the ability to learn

EXPERIENCE

HTML CODER
